TO THE AFFLICTED

DR. DOUGLASS respectfully informs the citizens of Boston that he may be consulted as to all diseases incident to the human frame, at his office

No. 56 Union Street.

Dr. D. has been in extensive practice in all parts of the United States, and has now in his possession the best of evidence to show that he is a regular M. D. He has been upwards of 40 years in practice. The diseases of females will receive the Dr's particular attention. He will tell all the diseases from an examination of the eye; this is an advantage that Dr. D. has above all other practitioners, and which will necessarily do away the necessity of a long and unpleasant explanation on the part of the patient, of the disease with which they are afflicted. The age and length of time the patient has been suffering, is all the Dr. will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected.

Dr. D. has been very successful in the treatment of Colds, Coughs, Consumptions and Liver Complaints, all Pulmonary diseases, Scrofula, Rheumatism, Fits, Dysentery, all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Gout, Salt Rheum, Cancers, cutaneous diseases and all affections of the kidneys and bladder, Tic doloureux, Hernia, Abdominal Weakness, Tooth ache, Intemperance, Stammering. Dr. D. warrants a cure of any of the above diseases, if applied to in season.

He would also respectfully inform the Ladies that he will attend to their diseases and complaints from 8 to 12 AM and from 2 to 9 PM. A full and general assortment of medicines are constantly on hand. [illegible] accompany each bottle or package.

All communications (post paid), with a fee enclosed, will receive prompt attention.

Brit ish Periodical Literature.

REPUBLICATION OF

The London Quarterly Review,
The Edinburgh Review,
The North British Review,
The Westminster Review,
—AND—
Blackwood's Edinburgh Magazine

The wide spread fame of these splendid Periodicals renders it needless to say much to their praise. As literary organs they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by equal vigor, candor and forbearance, not often found in works of a party character.

They embrace the views of the three great parties in England—Tory, Whig and Radical—Blackwood and the London Quarterly are Tory; the Edinburgh Review, Whig, and the Westminster Review, Radical. The North British Review is more of a religious character, having been originally edited by Dr. Chalmers, and now since his death being conducted by his son in law, Dr. Hanna, associated with Sir David Brewster. Its literary character is of the very highest order. The Westminster is high reputed under the title only published in England under the title of the Foreign Quarterly and Westminster, being in fact a union of the two Reviews formerly published and reprinted under separate titles. It has, therefore, the advantage by this combination of uniting in one work the best features of both as heretofore issued.

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers in a beautiful clear type, on fine white paper, and are faithful copies of the originals, Blackwood's Magazine being an exact fac simile of the Edinburgh Edition.

TERMS

For any one of the four Reviews	$3 00 per annum
For any two do	5 00 "
For any three do	7 00 "
For all four of the Reviews	8 00 "
For Blackwood's Magazine	3 00 "
For Blackwood and three Reviews	9 00 "
For Blackwood and the four Reviews	10 00 "

Payment to be made in all cases in advance.

CLUBBING.

Four copies of any or all the above works will be sent to one address or payment of the regular subscription for three—the fourth copy being gratis.

EARLY COPIES.

Our late arrangement with the British publishers of Blackwood's Magazine secures to us early sheets of that work, by which we are enabled to place the entire number in the hands of subscribers before any reprint can be republished in any of the American Journals. For this and other advantages secured to our subscribers we pay so large a consideration that we must be compelled to raise the price of the Magazine.

☞ *Something may therefore be gained by subscribing early.*

☞ Remittances and communications should always be addressed (post paid or franked) to the Publishers.

To all whom it may concern:—This may certify that I was acquainted with the late Dr. Stephen Jewett from my boyhood up to the time of his decease. I have been his nearest neighbor ever since he first settled in Rye. He was a man of good character, and a skillful and invaluable medicine—and being composed entirely of vegetables, think them far better than the diseases of our climate than medicines composed of mineral substances. I have tried them and find them to be as represented and recommend them to the public as safe and invaluable medicines

SATURDAY, FEBRUARY 10, 1849.

The Loco Protocol to the Mexican Treaty.

The proceedings of Congress show that Mr Stephens in the House and Mr Mangum in the Senate have offered resolutions requesting the President to inform Congress whether there is any evidence in the Department of State of an agreement and assurance made by our Commissioners, with the Mexican Government before the ratification by said Government of the amendment made to the Treaty by the U S Senate, and whether said protocol has been submitted to the consideration of the U S Senate and been sanctioned by a constitutional majority of that body, and farther, for the President to give information whether he was aware of the existence of the Protocol at the time of his Proclamation of the final exchange and Ratification of said treaty on the 4th of July 1848

These resolutions were simply an inquiry and if all the matters had been conducted fairly and above board there could not be the slightest objection on the part of the President to give the desired information But no sooner were the resolutions read, embracing as they did the Protocol than a portion of the administration members were in arms against their being received and very plainly manifesting an unwillingness that the hidden events of the treaty and the negotiators should be brought to light

It seems that the Protocol referred to did not come from the State department, but according to the Washington correspondent of the New York Express, the discovery of it was effected in the following manner—The Mexican Minister—Luis De La Rosa—who negotiated the treaty on behalf of his government, and whose name is appended to the protocol, in a conversation with a citizen of Washington, casually adverted to the protocol and spoke of its effect in connection with the treaty

Much surprise was excited at the intelligence and upon solicitation, a copy was furnished by Mr Rosa in the words in which incorporated in the resolutions offered by Mr Stephens and published below

The fact was then communicated to a respectable member of Congress, and in this way the subject was brought before the two branches

The disclosure of this Protocol which the Commissioners and the President have assumed to act in the treaty making power with the concurrence of the U S Senate has shocked all parties at Washington and may well attract the earnest attention of the people of the country It is another instance of the tendency of locofocoism to centralize power in the hands of the President—an enlargement of the veto principle by the absorption of the other branches of the government by the Executive

The U S, Senate amended the Mexican treaty at the time it was before them for ratification by striking out the 9th article, which was designed, and very strongly worded to preserve the Catholic Church in all its political property and ecclesiastical rights In place of this the Senate inserted the following

Art 9 The Mexicans in the territory aforesaid, shall be secured in the full exercise of their religion without any restriction, and those who may desire to remove to the Mexican Republic shall be permitted to sell or export effects at any time whatever without being subject in either case to the payment of any duties

The Mexicans who in the territories aforesaid shall not retain the character of the Mexican citizens, conformably to the stipulations of the preceding article, shall be incorporated into the Union of the U S as soon as may be consistent with the principles of the Federal Constitution, and admitted to the enjoyment of all the privileges, rights and immunities of the citizens of the United States and in the meantime, they shall be maintained and protected in the full enjoyment of their liberty and property

The 10th article referred to, related to Texan lands, and declared that the grantees of land in Texas should fulfil all the conditions attending such grants within a prescribed time

The 12th article related to the mode of payment and the plan was essentially modified

The resolutions have passed the House and will probably pass the Senate What the President may have to say in answer may come by and by—and may not

PROTOCOL

of the conference previous to the ratification and change of the treaty of peace, between Ambrose H Sevier and Nathan Clifford, Commissioners, as Ministers Plenipotentiary on the part of the United States, and Don Luis la Rosa, minister on foreign affairs, for the Mexican Republic

In the city of Queretaro, on the 26th of May, 1848, at a conference between their Excellencies, Nathan Clifford and Andrew H Sevier, Commissioners of the United States, with full powers from their Government to make to the Mexican Republic suitable explanations in regard to the amendment which the Senate and Government of the U S had made in the treaty of friendship, limits and definitive settlement between the two republics, signed in the city of Guadaloupe Hidalgo, Feb 3d, 1848, of the present year, and His Excellency Don Luis de la Rosa, Minister of Foreign Affairs of the Republic of Mexico, it was agreed to, after adequate conversation respecting the changes alluded to to record in the present Protocol, the following explanations, which their aforesaid Excellencies the Commissioners, gave to the name of their government, and in fulfilment of the commission conferred upon them near the Mexican Republic

1st, The American government by suppressing the 9th article of the treaty of Guadaloupe and substituting the 3d article of the treaty of Louisana, did not intend to diminish in any way what was agreed upon by the said 9th article, in favor of the inhabitants of the territories ceded by Mexico Its understanding is that all of that agreement is contained in the 3d article of the Louisana treaty

In consequence, all the privileges and guarantees, civil, religious and political which would have been lessened by the substitution of the ceded territories, if the 9th article of the treaty had been retained, will be enjoyed by them without any difference under the article which has been substituted

2nd The American Government by suppressing the 10th article of the treaty of Guadaloupe did not in any way intend to annul the grants of land made by Mexico in the ceded territories These grants, notwithstanding the suppression of the article of the treaty, preserve the legal value which they may possess, and the grantees may cause their legitimate title to be acknowledged before the American tribunals

Conformably to the laws of the United States legitimate titles to every description of property, personal and real, existing in the ceded territories, are those which were legitimate titles under the Mexican law in California and New Mexico up to the 13th of May, 1846, and in Texas up to the 3d of March, 1836

3d The Government of the United States by suppressing the concluding paragraph of article 12th of the treaty did not intend to deprive the Mexican Republic of the free and unrestrained faculty of ceding, conveying or transferring, at any time, (as it may judge best) the sum of $12 000 000, which the same government of the United States is to deliver in the place designated by the amended article

And these explanations having been accepted by the Minister of Foreign Affairs of the Mexican Republic, he declared in the name of his Government that with the understanding conveyed by them, the government would proceed to ratify the treaty of Guadaloupe as modified by the Senate and Government of United States In testimony of which their Excellencies, the aforesaid Commissioners and the Minister have signed and sealed in quintuplicate the present Protocol

Congress

WASHINGTON, Feb 5

In the Senate—The Vice President called the Senate to order at 12 o'clock M, when prayer was made by the chaplain and the journal read

The Vice President laid before the Senate several communications from the President, the contents of which did not transpire

Mr Mangum of N C submitted a resolution similar to that proposed by Mr Stephens in the House, on Saturday, calling upon the President to communicate to the Senate certain documents supposed to be in existence relative to the secret history of the Treaty of Guadaloupe Hidalgo, inquiring of him whether there is not a Protocol extant which modifies the amendments of the Senate to the Treaty, &c

After an informal discussion, in which no facts of importance were elicited, the resolution was laid over

Mr Hunter of Va presented a series of resolutions passed by the Legislature of Virginia, re affirming the resolutions which were passed by the same body in the year 1847, with regard to the Wilmot Proviso, and the question of slavery in the territories

Mr Hunter supported the resolutions in a few appropriate remarks, when, on motion, they were ordered to be printed

Mr Clayton of Del, from the Joint Committee having the subject in charge, presented a report recommending that the two Houses meet on the 14th instant, and proceed to count the votes cast during the late election for President and Vice President of the United States, also recommending that one teller be appointed on the part of the Senate and two for the House

The report was adopted, and Mr Clayton appointed teller on the part of the Senate

Mr Breese submitted a resolution directing an inquiry to be made into the expediency of establishing a marine hospital at Rock Island, Ill, which was considered by the unanimous consent and agreed to

Mr Rusk of Texas offered a resolution directing an inquiry to be made into the expediency of making an appropriation for the expenses of certain secret service had during the late war with Mexico—which was considered by unanimous consent and finally agreed to

After the transaction of some further business of no general importance, the bill providing for a reduced and uniform rate of postage was taken up, and when

Mr Allen of Ohio rose and delivered a lengthy and earnest speech, principally in opposition to the system of ocean steamers, and in reply to the late speech of Mr Niles of Conn, on the same subject He charged the Senator from Connecticut with turning a Somerset on the tariff question, and animadverted with much feeling on sundry other alleged demonstrations of his party

Mr Niles responded in a happy manner, and declared that the same act was on the other side The Senator from Ohio had made the somerset, and done it upon Executive dictation

The matter was amicably adjusted between the two Senators in an interesting parley

Mr Pearce of Md, next expressed his views upon the subject. He was opposed to the free circulation of newspapers The interests of the people would not be advanced by it He was in favor of a low and uniform rate of postage for newspapers, instead of an entirely free circulation

Messrs Dickinson of N Y, and Westcott of Fla, briefly addressed the Senate upon the subject, when, on motion

The Senate adjourned.

The House convened at noon and opened as usual The journal having been read,

Mr Sibley, of Wisconsin, offered a resolution in favor of establishing sundry new mail routes on the upper Mississippi, which was, by unanimous consent considered and agreed to

Mr Tuck, of New Hampshire, offered a preamble and resolution in favor of settling disagreements among nations by arbitration

The resolution having been read Mr Tuck moved to suspend the rules in order that it might be immediately acted up on—which motion failing, the resolution took the usual course

Mr Stephens, of Georgia, on motion, obtained the unanimous consent of the House to offer his resolution respecting the supposed Protocol to the late treaty with Mexico

The Clerk having read them,

Mr Wentworth of Illinois called for the yeas and nays on the suspension of the rules, in order to act upon the resolutions—which were ordered, with the following result—yeas, 181, nays 3

The resolutions being now before the House Mr Stephens proceeded to explain and illustrate the merits of the question in an earnest and eloquent speech

He read the resolutions hitherto passed by the House, calling on the President for a copy of his instructions to the treaty commissioners Messrs Sevier and Clifford, and for a correct copy of the late treaty with Mexico He also read the President's reply to the same, stating that it would be incompatible with the public interests to furnish the information called for He said it was his sincere belief that the public interests which he had referred to on his resolutions did exist and if his present effort to call it forth from its slumbering place proved ineffectual, he should then move the appointment of a select committee, with power to send for persons and papers He reviewed several passages of the treaty, which had been stricken out or altered by the United States Senate, and showed that they were not what the protocol represented them to be How, he asked, did the President or his agents dare to impose this fraud upon the Mexican Government?

Mr Houston, of Alabama, replied with considerable warmth Great injustice had been done to the Executive, in the gratuitous attack of the gentleman from Georgia There was no essential difference in the treaty before and after the amendments of the Senate had been made to it Mr Buchanan's letter to the Mexican Government, on the subject, was similar in character to the protocol

The speaker was here interrupted by Messrs Stephens and Toombs, of Georgia, and questioned in regard to this point

Mr Houston proceeded to read several extracts from the letters of Messrs Sevier and Clifford, to Mr Buchanan, under date of the 25th of May, 1848, stating that the Mexican Congress had just agreed to the protocol treaty, dated May 26 How then was fraud practised upon the Mexican Government

Mr Stephens explained, and said that the Mexican Congress was not alone the Mexican Government The Mexican Executive refused to give his sanction to the treaty until the Protocol was framed and signed

Mr Ashmun of Massachusetts, interposed, and read a letter from the American Commissioners to Mr Buchanan, of a date four days later intimating that the treaty had been ratified by the Mexican government

Mr Houston resumed his remarks in defence of the President, and said that the President had been assailed by the gentleman from Ga, in language which did the President no injury, but which is not used by one gentleman against another on the floor

Mr Stephens interrupted the speaker He had asked the President kindly enough for this important information, and he would ask no more But if he had dared to withhold it, he would ask for a committee with power to send for persons and papers, to make the inquiry

Mr Houston said that President Polk could not be intimidated into a compliance with the gentleman's request

Mr Stephens—"We will try it"

Mr Houston, in closing his remarks upon the subject, submitted an amendment to the resolution making the call conditional, so as to request the President to communicate the information, in case he deems it not incompatible with the public interests to do so

Mr Schenck of Ohio, followed in an interesting speech He laid down the distinction between the American Executive and Congress and the Mexican Executive and Congress He asked what had been done in regard to the treaty, and gave a history of the case Finally he pronounced the President's conduct fraudulent and deceptive throughout the war, and also with regard to the treaty

Mr Boyd of Kentucky, interrupted him, and said the Mexican Executive wanted the Protocol to show to the people of Mexico

Mr Schenck resuming, said he had no doubt of it This, he continued, was the work of the executives of the two Governments True, our Senate had debated their amendments so many days, and then adopted them but what cared the President for it? He told the Mexican Government with the same breath with which he approved of the amended treaty, not to care for those intermeddling legislators—their amendments were of no account—they were mere matters of form "Let us entrap the treaty" And so it was satisfied As to the objection which had been raised against the mode of calling for this information, he had made no criticism upon the President, on it he had treated it with contempt He now moved that the call be made absolute, and compel the President to produce the protocol

Mr Burt, of South Carolina, followed, and said that the weak side had got certain important information from somewhere and that the other side had received important information from some source which all could readily conjecture, while he had not obtained it from either He moved the previous question, in order, he said, that a vote might have it

The question was accordingly taken by yeas and nays, and lost—yeas 84, nays 96

Mr Stephens then slightly amended his resolution, when the question on their adoption was taken and carried by yeas 147, nays 34

Mr Meade offered a resolution that the Library Committee procure a marble copy of the Statue of Washington in the Capitol at Richmond, Va, to be placed in the Rotunda of the National Capital at Washington

The resolution having been adopted, on motion, the House adjourned

Gen. Taylor's Departure.

The citizens of Baton Rouge having been informed of the period at which General Taylor would depart for his plantation on the Mississippi prior to the commencement of his journey to Washington, assembled spontaneously, and without regard to party differences, on the 23d ult, to pay their respects and bid him farewell A procession was formed and the mass proceeded to the residence of Gen Taylor at the U S Barracks, where they were received with distinguished courtesy, and hospitably entertained

Acting in behalf of those present, Mr J B Thorpe, briefly but pertinently addressed the General, who made the following reply:

"Gentlemen—I assure you that it is with feelings of no ordinary character, that I meet with my fellow citizens on this occasion, many of whom I have been associated with for more than a quarter of a century Had I consulted my own wishes, I should have much preferred to retain the office I am now about to vacate, and have remained among you, but the people have, without my solicitation, seen fit to elevate me to another, and although I fear I am not qualified to discharge the great and important duties imposed upon me, yet be assured fellow citizens, I shall endeavor to fulfill them without regard to fear favor or affection for any one.

"Permit me, my friends, at parting to invoke God's blessing upon you all, and may he grant that you and your families may enjoy long life and prosperity—Farewell."

The General was in vigorous health and fine spirits, and left Baton Rouge, as we have already announced, on the 24th ult.

Lost Voice, &c., Restored

New Bedford, Aug 10, 1848

Mr S W Fowle—Having seen many certificates published in relation to Dr. WISTAR'S BALSAM OF WILD CHERRY I take the opportunity of offering a word in its favor which you are also at liberty to publish A few months since my wife's Lungs became so much affected by a sudden cold, that she lost her voice, and suffered severely from pains in the breast. Her situation caused her friends much alarm Having heard your Balsam strongly recommended by those who had used it I purchased a bottle of your agent in this place. She took it according to directions and it produced a wonderful effect. Before using one bottle she had completely recovered her voice the pains subsided, and her health was soon fully established Yours truly,

A NATURAL

HAIR DYE!

BALLARD'S IMPROVED LIQUID HAIR DYE is the best preparation that we have ever seen for coloring the hair It will positively restore gray Hair to its original color whether auburn, brown or black, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Sandy, light, or red hair can be matched with any darker shade

From numerous testimonials, which may be seen at the manufacturer's wholesale depot, No 51 Cortlandt street, New York, the following, from the celebrated Crustadoro, of the Astor House is presented —

No. 5 Astor House, New York, Sept 21, 1848 — Mr O M Ballard—Dear Sir—It is but justice to you to say, that of all the preparations for dying hair I have tried, none has answered so well the purpose as your Improved Liquid Hair Dye, of which a great deal less trouble is using it than any other I give you this testimony upon my solemn conviction that it is worthy the patronage of all who may wish to exchange gray, light, or red hair for a beautiful auburn, brown, or black, and from the peculiar softness and lustre which it imparts to the hair, the ladies cannot but give it a decided preference. Yours respectfully,

WRIGHT'S INDIAN Vegetable PILLS

It is not our wish to trifle with the health of the community. We desire to be governed by a sacred regard to truth in whatever is here stated in relation to this extraordinary medicine; and it is this feeling of sincerity and good faith which prompts us again and again to call attention to it We believe that no article has ever been discovered that has conferred a greater amount of benefit on the community, and the more it is known the better it is appreciated.

SAVE YOUR DOCTOR'S BILLS.

Thousands of dollars of doctor's bills have been saved by the use of this medicine, and there is little doubt that if it were more generally resorted to than it is, sickness would in most cases be prevented

New York, April 17, 1848.

This is to certify that I have used Wright's Indian Vegetable Pills in my family for more than four years, and as a family medicine believe them the best in the world. During that period I have had no occasion for a physician, though my daughter and wife have been very low several times. WILSON TREADWELL,
Rivington Street.

NERVOUS DEBILITY—LOSS OF ENERGY.

Wright's Indian Vegetable Pills speedily and permanently restore the deadening powers of the human body. This may at first be doubted, but no fact is better established. Those who use the *celebrated* Sarsaparilla for this purpose, overlook, in doing so, a medicine far less expensive and more effectual.

Clymer, Cheautauqua Co., N. Y., Oct. 5, 1848.

Dr. Wm Wright—Sir—For the last three or four years I had been gradually running down, and finally became so weak that I was unable to perform my usual labor. I was advised to try your Indian Vegetable Pills, and I am gratified to state that by the use of three or four boxes I began to feel like myself again, and am now thoroughly cured.

From my own experience I can commend your Pills to the afflicted, with confidence that they will be found a medicine of great efficacy and value. Yours, truly,
JOHN CLEAVELAND.

WELL SPOKEN OF BY ALL!

Angelica, Allegheny Co., N. Y., Sept. 29, 1848.

Dr. Wright, Philadelphia:

Sir—I AM AT LOSS TO EXPRESS WITH WORDS WHAT HAS BEEN SAID IN PRAISE OF YOUR INDIAN VEGETABLE PILLS. All that I have sold to, without exception, speak very highly of them. I have acted as your Agent here for the last two years, and have frequently used the Pills myself. I can speak from experience on the subject, and can cordially recommend them to my acquaintance and the public in general. Respectfully yours,
ISRAEL N. HOWE.

Let it be remembered that Wright's Indian Vegetable Pills are prepared with special reference to the laws governing the human body. Consequently, they are always good, always useful, always effective in rooting out disease. Every family should keep them on hand.

Look out for Counterfeits!

Some are coated with sugar; others are made so resemble, in outer appearance, the original article. The safest course is to purchase from the agents only, one or more of whom will be found in every town and county in the State.

FOR CALIFORNIA!

The new, splendid, well coppered and copper fastened Bark

GOLD HUNTER,

of three hundred tons burthen, now building, will be ready to leave for the *Gold Regions* the last of March next, and will proceed directly there, provided a sufficient number of passengers and quantity of freight are procured.

This Bark will remain upon the coast of California for several months, at the most convenient point for the gold region, and then return to Bangor.

Passengers in the GOLD HUNTER will be supplied with all the necessaries of life, and will have the privilege of making the Bark their home and store-house while she is on the coast. She will be fitted up expressly for this business, and every attention will be paid to the wants and wishes of her passengers. This is one of the safest and pleasantest modes in which our enterprising citizens, who wish to avail themselves of the recently discovered treasures, can do so.

The GOLD HUNTER will be commanded by one of the most experienced and thorough seamen on the river, in whom all will have entire confidence, and the voyage will be wholly made up under his direction and with special reference to the interests of the passengers.

No voyage has been projected for a long time which promises to be so pleasant and profitable as this, and those who propose to take passage in this substantial vessel, and avail themselves of the numerous advantages here offered, will please make immediate application to the subscriber.

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Excellent put up in Quart Bottles—at six times cheaper a preparation and warranted superior to any sold Elsewhere without containing purging salt cream or exhausting the Patient

The great healing and purgative virtues of the Sarsaparilla root and other medicine in which are indicated diseases of the system are well known It is none of the very best *SPRING AND SUMMER MEDICINES* over known, it not only purifies the blood system and by so doing it prevents our pure and rich *Blood* a poisonous poisonous and virulent nature and so it is that the great secret of its wonderful success—Hundreds of cures have been performed within the last few years, more than 100,000 cures, I have cured diseases in four 15,000 cures of Liver Complaint alone. It has saved in lives of children 5 000 children during the two seasons

10 000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend's Sarsaparilla is very sure to whole system in a few weeks. To those who have lost their muscular energy by the effect of medicine or induced by committing youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system accompanied with nervous irritation, loss of memory, premature decay and debility, I would say that full directions, Consumption can be entirely prevented by the present remedy This Sarsaparilla is very superior as an

INVIGORATING CORDIAL.

As it renews and invigorates the system, gives activity to the mind and strength to the muscular system in a most extraordinary degree

SPITTING BLOOD

New York, April 28, 1847

Dr TOWNSEND—I verily believe that your Sarsaparilla has saved me from a premature grave. I was for several years subject to the Spitting of Blood, and was greatly reduced by it, and had given up all hope of being cured, when I was induced to try your Sarsaparilla, and I am now in good health and strength, and I do not expect to have any more of the Spitting of Blood. I have only used your Sarsaparilla a short time, and there has been a marked change wrought in me I am now able to work. Hoping this may reach the public, and may be the means of saving many from the grave, I remain Yours respectfully

Yours obliged

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly credited to this wonderful virtues

James Cummings, Esq one of the assistants in the Lunatic Asylum, Blackwell's Island, in a gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered severely for nine years with the Rheumatism, sometimes so bad I could not get out of my bed. I tried the most distinguished Physicians, and my bills were swelled I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good I can now declare myself as the most certain remedy of such diseases with which I am acquainted Yours respectfully,

JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and we surprised to receive the following from an intelligent and respectable Farmer in Western New York

Fordham, August 13 1847

Dr Townsend—Dear Sir I feel so much gratitude for your valuable Sarsaparilla that I cannot but write and let you know the great benefit I have received from it. My wife has been afflicted with Fits for the last twelve years, and I have tried almost every thing, for her but without success, at last, although we could find no encouragement to place confidence in cures, I thought we would try your Sarsaparilla, and we are very glad we did, for it not only restored her to strong health, but it has lasted her for the last three years, to our great pleasure and surprise. She is in fact a living proof of the virtues of which we feel grateful Yours, respectfully,

JOHN BUTLER, Jr

FEMALE MEDICINE.

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption Barrenness, Prolapsus Uteri or Falling of the Womb Gonorrhoea, Fluor Leucorrhoea or Whites, obstructed or difficult Menstruation a frequent concomitant of Urine or involuntary Discharge there of and for the general prostration of the system—no matter whether the result of inherent cause or disease produced by irregularity, illness, or imprudence Nothing can more surprising than its wonderful effects in the human system Restoring well men and females to from ruining it at once be common sense and full of energy and the influence It has never failed in the hands of the female nurse which is the great cause of its success It will not be expected of us, in case and so delicate a subject, to exhibit the great fearful or even pain full but we assure the Ladies that Dr Townsend's Sarsaparilla has been in use for many years, and Thousands of cases which Physicians have given up as incurable have been cured in a few weeks and restored to perfect health and happiness

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla is so much greater than any other for the female complaints No female who has recourse to it can be disappointed in the critical period *The turn of life* should be exceedingly careful at this period of life for any of the numerous and horrible diseases to which females are subject at the time of life They should use it for several years by using this medicine Nor is it less valuable for those who are approaching womanhood as it is calculated to remove all impurities of the blood and invigorating the system Indeed this medicine is valuable for all the female diseases to which women are subject

It braces the whole system, renews young energy, restores the natural energies—by removing the impurities of the blood and by its stimulating, so to produce a regular relaxation—which is the cause of most medicines taken for female weakness and disease By using a few bottles of this medicine many severe and painful sufferings will be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN.

It is the safest and most effectual medicine for purifying the system and so relieving the sufferings attendant upon child birth and recovery and strengthens both mother and child preventing pain and suffering, increases and enriches the food—if one who has used it thinks it is not any more valuable If is highly useful both before and after confinement and prevents diseases attendant upon that time—in fact it is a Cordial to the Mother, Nursing Parent and Child, Diseases Heartburn, Vomiting Pain in the Side and Bone, Pile Piles, Hemorrhoids, and in regulating the secretions and giving the circulation of the blood regular The great basis of all diseases is in the stomach and bowels, and the most delicate use is most successful, very few cases require Magnesia is useful Exercise in the open air and Cheerful Mind with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations go on to ruin, when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when natural is not impeded by disease or powder, or the skin is produced by the alkalies used in such compositions in the most exquisite beauty It is that which imparts the garden of rich and delicately tinted and transparent hues A free, active and healthy circulation of the fluids or the dwelling of the pure, fresh blood to the extremities, is that which paints the complexion in the most exquisite beauty It is that which imparts the indescribable shades and flushes of feeling that all admire but none can describe This beauty is the offspring of nature—not of powder or rouge Nature is free and healthy circulation, there is no beauty If the lady is fair as driven snow, fresh paint and other cosmetics, and the blood is thick, cold, and impure, she is not beautiful If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complex ion, they should use Dr Townsend's Sarsaparilla Thousands who have tried it, and they have not been disappointed, are delighted. Ladies of every station crowd our offices daily

NOTICE TO THE LADIES

Those that install Dr. Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females*, &c, &c, and have copied our bills and circulars which relate to the complaints of women, word for word—other known or not quite so delicate, have seen the great success of Dr Townsend's Sarsaparilla in complaints peculiar to females, recommended it, and they not only they did not. A number of base Mixtures, Pills, &c, are in vogue to imitate it but they aggravate disease, and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate disease of the blood. Three persons cured in one house is unprecedented

THREE CHILDREN CURED

Dr Townsend—Dear Sir—I have thought it my duty to inform you that three of my children have been cured of the Scrofula by the use of your Sarsaparilla—They were very afflicted very severely with it and were have taken only four bottles, it took them away, for which I feel myself under a great obligation. Yours respectfully,

CONSUMPTION CURED!

Buchan's Hungarian Balsam of Life.

THE GREAT ENGLISH REMEDY FOR COLDS, COUGHS, ASTHMA and CONSUMPTION

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled and unsurpassed as the most efficacious, agreeable, and effectual curative of these formidable complaints, now known to the civilized world

The sale of this article in the United States, during the last three years has been distributed from Maine to Florida, it has only served to establish its pre-eminent merit in all parts of the country. Its unparalleled success results from its wonderful power over Pulmonary diseases, the most efficacious and most agreeable curative of all the slight forms of colds, cough and inflammations that can possibly be used

INCONTESTIBLE PROOFS

Of the efficacy of this balsam in the worst forms of Consumption

IMPORTANT MEDICAL TESTIMONY

Dr Lindsey—Boston—The Hungarian Balsam is my opinion to be a most perfect and admirable preparation for the cure of Pulmonary Complaints, in my family and in my professional practice for more than two years, it has been a sure and speedy cure, I can conscientiously recommend it to my professional brethren as the most certain remedy of such diseases with which I am acquainted Yours respectfully,

FREDERIC I STORER, M D

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

From the Christian Freeman

While we repudiate quackery we are always pleased to give information which may prove of great benefit to our readers. Some months since, from Portsmouth, Me, came to our office a man of decidedly ill health, whom we did not recognize on our first interview. We recognized him a few weeks since, from another brother traveller, at a house with him saying that he was confined to his bed when he called at our office. He has gone through a course of medicine, and is now in good health, and he has not lost a day's time since. He says he has taken Buchan's Hungarian Balsam of Life, and he believes it to be the means of his recovery. The following letter which he addressed to the general Boston Agent for the medicine, shows what has taken place in his case

Portsmouth, Feb 16 1847

Dr D F Brodie—Sir—I cannot refrain from saying a word to you in commendation of Buchan's Hungarian Balsam of Life. Here is a case which can not be denied. I intend to say enough, and that is all, for any to know, I was in a decline and had the cough, from whence I obtained relief, I shall be thankful. My testimony is worth little, for I do not expect to live full a year. I suffered so much with the cough, that I no longer rested long. I was recommended to try the Balsam, and I have taken three bottles, and I feel that it has done me good. Last June I had a severe attack of the cough, I thought it would well work and was confined to the house until August. I was so much better that I concluded that some I received this best made into others, and I certainly all the medicines which are recommended to be of no use, I could find no relief, and grew worse, and to the last I was in a state of dying bed. Two of my physicians gave me up as past the Hungarian Balsam, and immediately procured a bottle. I gave me immediate relief, and I continued to use it, and I am now able to work, and I feel that I am able to resume, with advancing health, my usual occupation

BE WISE TO-DAY

Delay is dangerous, consumptive tendency is complained by the first attack of ordinary complaint. The Hungarian Balsam is a great ANTIDOTE, we will CURE THE. If you have any symptoms above described

Compound Extract of Sarsaparilla and Dock.

THE art cles above named are the principal ingredients of this medicine With these one of vegetable origin are combined, designed to render the compound more active, and consequently more immediately effective

The Dock, or rather species of it now ranks as a medicinal plant, second to no one of the vegetable kingdom With the aid of so distinguished chemist whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they will prove of the properties which have been ascribed to them Recently he has added the dregs of infusing them which has resulted in the production of the compound In this the ingredients are found to act harmony and to lose none of the qualities which the separately possess

A larger portion of the sarsaparilla is soluble than has generally been supposed The extract most to be relied on and least liable to decomposition is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, and evaporating without heat or any other necessary ingredient Now is presented to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation

The Compound is recommended for Scrofulas Erysipelas, Humors affections Eruptions, and Mercurial diseases Also for the numerous maladies arising from sedentary employments, pecuniary vations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution among which are Neuralgia Fits Affection of the Liver, Bilious Complaints, and Dyspepsia or Indigestion

In diseases of warm climates, with which the proprietor became familiar in his practice in Havana some years since, the compound will prove particularly efficacious, both as a remedy and a preventative

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general to whom he is known

McKENNEY'S COSTACY SALVE!!

An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs, Swelling of the Tonsils or Sore Throat Humor Eruptions of the Skin, and all Scrofulous Diseases Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pain in the Stomach, Piles Corns Warts, and Bunions Sores, and Cuts and Bruises of all kinds

In bringing the article before the Public we are aware that we labor under no small disadvantage amidst the multitude of All-Healing Ointments and Balsams that are now advertised as the "*most effectual*" and "*certain cures*" for all diseases indiscriminately to which man or animals are subject

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add that we have undertaken the task of manufacturing the above named Salve at no considerable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all-healing properties

To say indeed, that we do not expect to realize a handsome remuneration for our services, would be idle and ridiculous in the extreme But we flatter ourselves that if, forsooth, we are richly paid, and the article soon, very soon, becomes an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated we do not and shall not call to our aid the empty *puffing of the Press*, or the "bought certificates" of individuals and shall make use of them only so far as they have been or hereafter may be entirely *voluntary and unsolicited*

The Salve is now before the Public

They, and they alone will decide upon its real virtues and merits, all gloss or puffing to the contrary notwithstanding. To say less were injustice to ourselves—to say more would be superfluous

Hear some of the many Certificates—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee After using many remedies without success I applied one Salve obtained of Mr A M McKenney and continued the application until I had used six bottles, which entirely cured me and I have had no return of the disease since I would also say that I know the above Salve to be a cure for Costacy, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter, (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, without success, which cost me about forty dollars, I bought Half a Box of Dr. McKENNEY'S SALVE, which effected an entire cure in less than two months
